## RAPIDCLEAN ENZYME TOILET & BATHROOM CLEANER

RapidClean Enzyme Toilet & Bathroom Cleaner is powered by natural multi-enzyme technology with biodegradable surfactants. A completely natural alternative which is; biodegradable, non-bacterial, non-hazardous, non-toxic, non-corrosive, non-flammable.

With a higher concentration of enzymes compared with competitors, Toilet & Bathroom Cleaner contains a soap-free multi-enzyme formula designed to effectively remove odours, lime, soap scum and other deposits from porcelain and other surfaces.

Replaces the need of using bleach in a washroom and bathroom environment. It is also formulated to act as a urinal cleaner and deodoriser. This heavy duty descaler also works as a sanitiser, killing germs and bacteria in its track. Easy to use, ready to use and all natural.

## FEATURES

- Safely removes hard water and calcium deposits from all surfaces
- Eliminates odours by destroying the source of the problem
- No bleach or chlorine
- Long-lasting performance
- Removes Biofilm that bacteria feed on
- Urinal cleaner and deodoriser
- Can be used in drains, porta-loos, camp sites, waterless and flushing toilets
- Broad spectrum of enzymes
- Biodegradable Surfactants
- No phosphate, bleach or chlorine
- Highly Economical
- Completely natural ingredients
- Enzyme technology
- Septic tank friendly

## DIRECTIONS FOR USE

**Ready to use.** Shake well before use. Spray liberally on toilets, urinals and affected areas. Agitate surface with brush and allow 5 minutes for product to work. Wipe surface or flush clean. It is recommended you spray surface again after flushing for even better results.

**Urinals:** Spray the surface to be cleaned, let the product stand for 5-10 minutes, this will allow it to work on the urine and uric crystals. Use a brush to scrub off old build-up. Once all the old build-up has been removed, use as a spray and wipe to maintain cleanliness of the surface.

**Drains:** Use 200mL per application. Pour into drains to remove odour. If there are multiple drains, repeat application in each.

## SUITABILITY OF CHEMICAL FOR FOOD PREPARATION AREAS

When used as directed Enzyme Toilet & Bathroom Cleaner is suitable for use in kitchens and food preparation areas.
