

# Enzyme Waste & Grease Digester

- Safely clears drains without bleach or chlorine
- Easier cleaning & Eliminates odours
- Long-lasting performance
- Multi-Enzyme formula naturally destroys grease, grime, oil and food waste

**E4** ENZYME

Safe for food preparation areas

**Australian Made & Owned**

## RAPIDCLEAN WASTE & GREASE DIGESTER

RapidClean Enzyme Waste & Grease Digester is powered by natural multienzyme technology with biodegradable surfactants. A completely natural alternative which is; biodegradable, non-bacterial, nonhazardous, non-toxic, non-corrosive, non-flammable.

With a higher concentration of enzymes compared with competitors, Waste & Grease Digester contains a soap-free multienzyme formula designed to clean, treat and maintain drains, grease traps and waste pipes. It acts as both a superior cleaner and odour neutraliser, improving grease traps performance, unclogging slow or stopped drains and cleaning out waste pipes.

A more sustainable cleaner, RapidClean Enzyme combines several powerful enzymes resulting in efficiency beyond what competitive products can achieve.

## FEATURES

- Naturally clears pipes and drains
- Improves grease trap performance
- Eliminates odours
- Long-lasting performance
- No chlorine or bleach
- Broad spectrum of enzymes
- Plant based enzymes
- Completely natural ingredients and soap free
- Enzyme technology
- Biodegradable Surfactants
- Safe for food processing areas & septic tanks.
- No phosphate, bleach or chlorine
- Highly Economical
- Completely natural ingredients
- Enzyme technology

## DIRECTIONS FOR USE

**Drain lines:** Pour 120mL for slow drains and 240mL for clogged drains directly into drain. Use daily until clear.

**Grease Traps:** Grease trap should be pumped clear before initial treatment. Pour 120mL per 380L daily into drain closest to trap or directly into tank. For initial treatment use 240mL per 380L.

**Waste Pipes:** Pour 120mL into drain lines twice per week.

**Shower Drains:** Pour 120mL into drain. The enzyme will break down the soap scum as well as the body oils that hold the hair together, the hair will then dislodge. In this case multiple doses may be required.

## SUITABILITY OF CHEMICAL FOR FOOD PREPARATION AREAS

When used as directed Enzyme Waste & Grease Digester is suitable for use in kitchens and food preparation areas.

## HEALTH & SAFETY INFORMATION

For further information refer to the Safety Data Sheet (SDS)
