- 20 Packs per carton
- 'Point-to-point' high quality paper
- Ideal for high traffic areas
- Highly absorbent, superior wet strength & soft touch sensation
- Luxurious embossed finish

RapidClean Deluxe Ultraslim Hand Towel 2000 Sheets are engineered using innovative point to point™ (P2P) technology that enables us to bind two plies of towel together and create a series of small air pockets within each sheet. These small air pockets allow the towel to absorb at phenomenal rates whilst offering superior softness to most towels on the market. This premium quality towel is perfectly suited for upscale environments and ideal for light-duty wiper applications. By coupling the absorbency of P2P with a hygienic single-sheet dispensing system, RapidClean P2P Ultraslim is able to guarantee less paper usage and thus significantly reduce costs. Designed to fit all ultraslim dispensers on the market.
