- Highly absorbent, superior wet strength & soft touch sensation

### SUITS DISPENSERS:

RapidClean Towelex Ultralim Hand Towel 2400 Sheets are engineered using innovative point-to-point (P2P) technology that enables us to bind two plies of towels together and create a series of small air pockets within each sheet. These small air pockets allow the towel to absorb at phenomenal rates whilst offering superior softness to most towels on the market.
