Grill Master

Heavy Duty Oven & Grill Cleaner

GRILL MASTER is a heavy duty caustic based detergent combining specialty surfactants with water softening agents to provide maximum cleaning on mild steel, cast iron and stainless steel surfaces. N.B: GRILL MASTER must not be used on reactive metals such as aluminium.

Application:

GRILL MASTER is specifically formulated to remove heavy deposits of grease, fat, oil and carbonised soils from hot plates and ovens. It is also recommended for cleaning stainless steel canopies and benches in kitchen environments.

Direction for use:

IMPORTANT: surface to be clean should be just warm not hot. Gloves must be worn at all times

Spray GRILL MASTER using foam head on to warm 50°C surface.

Cover soiled areas with foam, let stand 5-10 minutes.

On cold surfaces, let stand for minimum 10 minutes. Wipe off with damp cloth, rinse surface with water.

Avoid contact with aluminium and painted surfaces.

Features & Benefits:

- Concentrated liquid - economical and safe to dose compared to powders.
- Contains speciality wetting agents to enhance cleaning and provide good rinsing properties.
- Contains no volatile solvents to ensure safe use on warm surfaces.

Suitability of chemical for food preparation areas:

When used as directed GRILL MASTER is suitable for use in kitchens and food preparation areas.

Health & Safety Information:

See separate Safety Data Sheet available on request.
