

STV Cleaner Pro

STONE, TILE & VINYL

Premium Commercial Floor Cleaner
Low Residue • Low Foam • Anti-Resoiling

STV Cleaner Pro is an advanced low-foaming commercial floor cleaner developed to bridge the gap between traditional neutral cleaners and aggressive alkaline tile cleaners.

Its innovative formulation combines the outstanding substrate compatibility of a neutral cleaner with the machine performance, low-foaming characteristics and anti-corrosion benefits typically associated with alkaline cleaners.

The result is a versatile daily maintenance cleaner capable of removing tracked-in particulate soil, oily grime and everyday commercial contamination while leaving floors cleaner for longer.

Designed for professional cleaners, STV Cleaner Pro is suitable for use through autoscrubbers, spray & extract systems and traditional mop applications for natural stone, tiles, vinyl and polyurethane-coated timber floors.

Benefits

- Bridges the performance gap between neutral cleaners and alkaline floor cleaners.
- **Ideal for use with the System 7 Pads.** Creating an unbeatable combination that delivers reliable, consistent results, maintaining floors at their original state
- Wide substrate compatibility makes it suitable for natural stone, tiles, vinyl and polyurethane-coated timber floors. See notes under 'Directions for use'.
- Exceptional removal of tracked-in particulate soil, oily grime and everyday commercial soiling.
- Advanced anti-resoiling technology helps floors stay cleaner for longer while eliminating detergent build-up.
- Dual anti-corrosion package helps protect pumps, tanks and internal components of cleaning machinery.
- Ultra low-foaming formulation delivers maximum performance through autoscrubbers and other professional cleaning equipment.
- Leaves a clean, streak-free finish with no soil attracting residue.

STV Cleaner Pro

Premium Commercial Floor Cleaner
Low Residue, Low Foaming.

pH: 9.5
MILD ALKALINE

Solution

Professional cleaners have traditionally been forced to choose between two compromises.

Neutral cleaners offer excellent compatibility with sensitive floor surfaces but often foam excessively, leave detergent residues and allow floors to re-soil quickly.

Alkaline floor cleaners provide superior cleaning performance and excellent autoscrubber compatibility, but many are unsuitable for finished floors, vinyl surfaces and floor coatings.

STV Cleaner Pro eliminates this compromise.

It's innovative formulation combines the strengths of both technologies into one specialised cleaner.

It delivers the substrate compatibility benefit of a neutral cleaner while providing the low-foaming performance, machine compatibility and anti-corrosion protection of an alkaline cleaner.

Combined with outstanding removal of tracked-in soil, oily contamination and advanced anti-resoiling technology, STV Cleaner Pro helps professionals clean a wider range of floors more effectively, improve productivity and keep commercial floors cleaner for longer.

Directions For Use

For PROFESSIONAL use only.

Always pre-test in an inconspicuous location for substrate sensitivity to chemicals.

Some acrylic / wax floor coatings can be sensitive to cleaning agents. Use the STV Cleaner Pro at a dilution of 1:150 in these applications.

Application

1. Dilute STV Cleaner Pro according to the level of soiling.
2. Apply using an autoscrubber, iMop®, spray & extract system or mop bucket.
3. Agitate where required using an appropriate brush or floor pad.
4. Recover cleaning solution and allow the floor to dry.
5. For heavy-duty cleaning applications, rinse thoroughly with clean water.

Dilution	STV Cleaner Pro	Water
Maintenance Cleaning		
1:100	10mL	1Lt
1:150	7mL	1Lt
Heavy Duty Cleaning		
1:25	40mL	1Lt
1:50	20mL	1Lt

Product Specifications

Product Code:	AP668
pH:	9.5 in use
Colour:	Purple
Fragrance	Floral
Safety:	Warning
Packaging:	1Lt, 5Lt & 15Lt
