TASKI®

AERO UP 38 E

Designed for reliability

AERO UP 38 E - the versatile and durable upright vacuum cleaner for a wide range of cleaning tasks. The roller brush technology delivers the highest mechanical cleaning action and allows deep cleaning of carpets and hard floors.

Designed for reliability

The single motor system of TASKI AERO UP 38 E provides excellent air flow, while the high-speed brushes mechanically removes dirt within the fibers of the carpet, delivering a superior cleaning result and enhancing the appearance of the carpet. The machine is lightweight and easily maneuverable, which allows a productive and ergonomic cleaning operation.

Versatility

The AERO UP 38 E is a powerful, durable and versatile upright vac for a wide range of cleaning. The on board durable tools and extension wand allows cleaning in hard to reach areas. The low profile design makes cleaning under furniture quick and easy for efficient vacuuming.

Improved air quality

The AERO UP 38 E comes with a 3-stage filter system: Filter bag, motor filter and HEPA exhaust filter. Changing the filters at the right time is key to maintaining vacuum performance and improving indoor quality. The 100-Hour HEPA Filtration Kit simplifies the maintenance and ensures high level air quality is maintained.

Easy of use

Easy to maintain - filters, brush roll and cord can be changed quickly and without the need for additional tools. The adjustable handle and contoured grip helps the operator to find a comfortable setting. The light weight of the machine also allows easy transport of the vacuum cleaner from one area to the other.
